cleaning and
maintenance
instructions at
www.moduleo.com

► Clean up spillages with a slightly moist mop

Clean regularly

Remove everyday dirt with:

- Broom
- Duster
- Vacuum cleaner

Remove stains with:

- Moist cloth
- Absorbent pad (not a scourer)

Mop with:

- Moist micro-fibre mop
- Regular mop (as dry as possible)
- A non-aggressive cleaner like Xtrafloor (www.xtrafloor.com)

Good cleaning and maintenance help preserve the appearance and extend the life of a Moduleo® floor.

Cleaning frequency depends on how intensely the floor is used, how many people walk on it, how dirty it is, what colour and what type it is.

Moduleo® floors are given **extra protection** by a Protectonite® lacquer on top of the resistant wear layer. This lacquer protects against dirt and makes cleaning easier. Thanks to the Protectonite® layer, the floor does not need to be pretreated with a protective agent.

Important

- Always wipe up spillages before they penetrate into the floor and cause permanent discoloration.
- A Moduleo® floor can be slippery when wet.
- When a neutral detergent is required, always follow the supplier's instructions with regard to mixing and how much to use.
- After cleaning, you need to dry the floor within one or two minutes to ensure no cleaning solution and dirt is left on the surface of the floor.

Frequently asked questions

How can I find a Moduleo[®] dealer close to me?

Find your nearest Moduleo[®] dealer at www.moduleo.com.

» Are Moduleo[®] floors suitable for bathrooms?

Absolutely. Moduleo[®] floors are highly moisture-resistant. This makes them exceptionally well suited to moist spaces like bathrooms (but not in wet spaces like saunas and showers). Plus our floors feel warm and soft, a pleasure for bare feet!

» Are Moduleo[®] floors suitable for kitchens?

Absolutely. Moduleo[®] has a very hard-wearing top layer and is moisture-resistant. This means that a Moduleo[®] floor is well-suited to use in kitchens. Plus our floors are very easy to clean.

» Can Moduleo[®] floors be used with underfloor heating?

They certainly can. Moduleo[®] floors feel pleasantly warm, because they quickly take on the ambient temperature. But Moduleo[®] floors can also be installed over underfloor heating, provided this is done professionally. Underfloor cooling is not an issue either.

» Does a Moduleo[®] floor need a lot of maintenance?

Not at all. Moduleo[®] floors are low-maintenance and, unlike some other types of flooring, very easy to clean. The Protectonite[®] top layer makes special treatments and immediate cleaning after installation superfluous. If you do note your floor is getting dirty, you can clean it thoroughly with Xtrafloor[®].

Your Moduleo[®] floor is easy to clean with a regular broom, micro-fibre cloth, vacuum cleaner or moist cloth. Regular cleaning keeps your floor looking beautiful for longer. Always use a non-aggressive cleaning agent.

» Can Moduleo[®] floors be installed over existing floors?

Yes, Moduleo[®] floors can be installed over many types of different floors such as concrete and timber hard level floors.

The floors do need to be properly prepared to ensure that they are sound, smooth, level and free from defects.

Please see www.moduleo.com for detailed installation instructions, with an overview of the installation requirements and the preparation required to install a Moduleo[®] floor.

» Can I install Moduleo[®] myself?

It is certainly possible to install the click version yourself. Moduleo[®] is easy to handle and cut. That being said, we advise you to have your Moduleo[®] floor installed by a Moduleo[®] dealer. That is your guarantee of professional finishing and you benefit from a full warranty.

IVC Group

Formed in 1997 IVC Group is a world leader in the development and manufacture of vinyl floors.

Six production units in Belgium, Luxembourg and the United States, employing 1500 people in total, manufacture some 100 million square metres of vinyl flooring annually

The IVC Group product portfolio comprises four brands: Leoline[®] (residential vinyl flooring on rolls),

Flexitec[®] (residential vinyl flooring on rolls in North America), Itec[®] (project vinyl flooring on rolls) and Moduleo[®] (high-end modular vinyl flooring for project and residential use).

In 2015 IVC Group became part of US listed company Mohawk Industries Inc., the global leader in flooring.

ECO? Logical!

The roots of our green production facility are in Belgium, which manufactures all our luxury vinyl floors in an ecologically responsible way.

Production with green energy

Our factory in Avelgem is equipped with three wind turbines that fulfil the strictest health and safety standards for noise and visual pollution. The turbines can generate up to 13.3 Gwh/year and provide for a third of the Avelgem IVC factory's energy needs.

Strict raw materials checks

Moduleo® consciously opts for production processes that meet the international standards. All suppliers must comply with REACH.

Made in Belgium

All Moduleo® designer floors are made in Belgium. Because our production is located as close as possible to our customers, we cut out polluting long-distance transport. That is a conscious decision, because we want to minimise our carbon emissions and ecological footprint.

Up to 50% recycled material

Moduleo® floors contain up to 50% certified recycled material. Post-industrial recycling also enables us to obtain an especially 'pure' type of PVC with a very limited impact on the environment.

Water-based inks and PU top layer

We only use environmentally friendly water-based inks and PU top layer for all printing processes.

Limited waste, extensive recycling

Moduleo® is always looking for new ways to package products, limit waste and maximise recycling.
